Washington

WASHINGTON UNIVERSITY IN ST. LOUIS

Vol. 11 No. 11/Oct. 30, 1986

An architect's sketch shows the \$3.5 million Plant Growth Facility with adjacent greenhouse, which is being built as an addition to the biology department's Life Sciences Building. Pictured to the right of the facility is Rebstock Hall.

## Plant growth

### \$3.5 million addition slated for biology department's Life Sciences Building

The biology department's Life Sciences Building is slated for a new look — a \$3.5 million addition called the Plant Growth Facility with an adjacent greenhouse.

The 15,000 square-foot facility, which will be ready for occupancy in November 1987, will be a three-story red granite and white limestone structure linked to the Life Sciences Building, Busch Laboratory and Rebstock Hall. It will be housed between Mallinckrodt Center and Monsanto Laboratory on Forsyth Boulevard. The biology department also occupies Busch and Monsanto laboratories and Rebstock Hall.

The project will include an additional 5,000 square-foot greenhouse facing Forsyth. Inside the structure, there will be five smaller greenhouses separated by glass walls. Preliminary work on the facility began in early October. The greenhouse will be available for planting in August 1987.

The existing greenhouse at the Life Sciences Building will be removed after the new one is in operation. The facility will reduce the number of parking spaces by 25. However, to help relieve the parking space reduction, William L. Flippo, manager of architectural services, says the University plans to build a third-level on the two-level parking deck. The deck is on the north side of campus and stretches from Mudd Hall to the McMillen Laboratory.

The first floor of the plant facility will contain office and storage space and a greenhouse workroom. Laboratories and a plant growth

chamber will be housed on the second floor. A laboratory and a mechanical equipment room will occupy the third floor.

Kallmann, McKinnell & Wood Architects Inc. of Boston, Mass., is the design consultant for the Plant Growth Facility. The Boston firm also designed the \$13.5 million Simon Hall. Gilmore, Malcic & Cannon Inc. of St. Louis is the project architect. The general contractor is Kloster Co. Inc. of St. Louis.

Roy Curtiss III, Ph.D., George William and Irene Koechig Freiberg Professor of Biology and chairman of the department, says the plant group faculty will use the addition and greenhouse extensively to study plant species ranging from soybeans to tobacco.

"The facility will make it easier for our faculty to do research with plant species because it will provide an isolation chamber to work safely with diseased plants," says Curtiss. "It additionally will allow faculty to work with plant cell and tissue cultures to study plant regeneration." Plant regeneration is the process of growing plants from parts of plants rather than seeds.

Curtis says the department has added several young faculty members to the plant biology program in the last three years. "As their careers blossom and they receive more research support, we need larger facilities," he says. "The structure will allow them to further their careers and expand their endeavors."

### Saperstein will examine Jewish responses to peril in Nov. 6 lecture

Rabbi Marc Eli Saperstein, Ph.D., will deliver the Gloria M. Goldstein Professor of Jewish History and Thought Inaugural Lecture at 8 p.m. Thursday, Nov. 6, in Steinberg Hall Auditorium. Saperstein, a former associate professor of Jewish studies at Harvard Divinity School, was appointed to the Goldstein professorship at Washington University in August 1986.

Saperstein's lecture is titled "Jewish Responses to Peril and Catastrophe." The lecture, which is free and open to the public, is sponsored by Jewish and Near Eastern Studies,

the Department of History and Religious Studies. During the talk, Saperstein will concentrate on the first Crusade and the Holocaust, discussing the options available to Jews facing a threat to survival and the various interpretations following those tragedies.

Saperstein is considered one of the nation's most distinguished scholars of contemporary Judaic history and affairs. The chair was created by Sam Goldstein, prominent St. Louis civic and business leader, in memory of his wife, Gloria M. Goldstein.

### Family of the '80s to be explored in sociologist's talk

Sociologist and Washington University alumna Pepper Schwartz will deliver the Woman's Club of Washington University Lecture at 11 a.m. Wednesday, Nov. 5, in Graham Chapel. Her lecture, titled "What's Happening to the Family? Intimacy and Marriage in the 1980s," is part of the Assembly Series and is free and open to the public.

Schwartz is an associate professor of sociology at the University of Washington, where she also teaches in psychiatry, behavioral science and women's studies.

She is an authority on the family, gender and human sexuality and has published several books, articles and reviews on those subjects.

Her most recent book, *American Couples: Money, Work, and Sex* (co-authored by Philip Blumstein), is based on a survey of 12,000 questionnaires and 300 in-depth interviews of American couples. The book examines the changing social reality by including cohabitating, gay and lesbian couples along with legally married couples.

Schwartz served on President Reagan's Advisory Roundtable on the Family in 1984. She frequently provides expert testimony on court cases involving custody, homosexuality, family patterns and pornography. A consultant to the CBS morning news, Schwartz also served as a consultant to ABC for a documentary on the family, which aired in July 1986.

She graduated magna cum laude and Phi Beta Kappa in sociology from Washington University in 1967 and, in 1969, received her master's degree in sociology here as a Woodrow Wilson Fellow. She received a master's in philosophy and a doctorate in sociology from Yale University.

Schwartz serves on the council of the American Sociological Association, Family Section; and has served on the national board of the YWCA, and the Washington state chapter of the ACLU. She was named one of the outstanding young women of the future by Time magazine and the *Seatt-*

## High hopes

Freshmen Kerry Fagan (left) and Brooke Hortin leap for a block in recent Bear volleyball action. The Bears have won 14 consecutive matches, and currently own a 38-8 season record. In the NCAA's latest Division III volleyball poll, Washington University was ranked 20th in the country — the first-ever such ranking for a Bear volleyball squad. Head coach Teri Clemens and her Bears are hoping for a post-season bid to the NCAA national tournament, where play will begin at four regional sites around the country on Nov. 14 and 15. The Red and Green spikers take the court again Wednesday, Oct. 29, to face NAIA power Culver-Stockton College. The volleyball team has four matches remaining in the regular season.

## Landscape architect to explain relationship of cities, nature

Landscape architect Anne Whiston Spirn will speak on "City and Nature: A Poetic Dialogue" at 8 p.m. Monday, Nov. 3, in Steinberg Hall Auditorium. Her lecture is part of the Monday Night Lecture Series sponsored by the School of Architecture. Her lecture is co-sponsored by the American Society of Landscape Architects. The lecture is free and open to the public.

Spirn is chairman of landscape architecture at the University of Pennsylvania and author of *The Granite Garden*, a study of urban architecture and its application to urban design. She is a consultant to the city of Boston and is currently studying how urban form affects air cir-

culation. Spirn is developing guidelines to promote better ventilation and circulation in the city.

A second project, "Exploiting the Open Space Potential of Urban Vacant Land," is a plan that views urban vacant land as an opportunity to reshape American cities. The study, funded by the National Endowment for the Arts, will be tested in Oakland, Calif.; Denver, Colo.; Dayton and Cincinnati, Ohio; New York's South Bronx; and in Boston. The study promotes 15 uses for vacant land, including recreation, storm drainage, forestry, agriculture and mineral conservation.

For more information about the lecture, call 889-6200.

## Students, faculty, alums invited to apply for apprenticeship in Far East

Graduating seniors in all fields, graduate and professional students, recent recipients of advanced degrees, junior faculty and alumni are all eligible to apply for a Henry Luce Foundation professional apprenticeship. Fifteen Luce scholars are selected annually to work in the Far East for one year.

The intent of the Luce Scholars Program is to provide an intensive experience in Asia for an outstanding group of young Americans who would not, during the normal course of their careers, expect to have such exposure. Therefore, any professional field will be considered except Asian studies.

Luce Scholars are placed in internships and jobs based on their in-

dividual career interests, experience, training and general background. Recent recipients have been attached to an architectural firm in Tokyo, a forestry project in Indonesia, a newspaper in Hong Kong, a training facility for public administration in Malaysia, a program in community medicine in the Philippines, the banking authority in Singapore, and a family planning center in Taipei.

Applications must be submitted by Friday, Nov. 7. For more information, contact James E. McLeod, Office of the Chancellor, Campus Box 1192, or Sara Epstein, Coordinator, Study Abroad Programs, Campus Box 1117, Washington University, St. Louis, MO 63130.

## Two St. Louis civic leaders appointed University trustees

Chancellor William H. Danforth has announced the appointments of two St. Louis civic leaders to the Board of Trustees: Harvey Saligman, chairman of the board and chief executive officer of Interco Inc., St. Louis, and Paul L. Miller Jr., president, Miller & Son Beauty Supply Co., St. Louis.

Saligman started his business career with Queen Casuals Inc. In 1965 he was elected vice-president and in 1968 president of that company, prior to its acquisition by Interco Inc. Three years later, he became president and chief operating officer. He assumed additional responsibilities of chief executive officer in 1983 and chairman of the board in 1985.

A native Philadelphian, Saligman graduated from the Philadelphia College of Textiles and Sciences in 1960. His civic activities include his appointment to the board of directors of St. Louis' Jewish Hospital, Mercantile Bancorporation, St. Louis Symphony and Children's Hospital. He also is a commissioner of the Saint Louis Art Museum. He is a member of the Knitted Outerwear Manufacturers Association, Locust Club of Philadelphia, St. Louis Club, Noonday Club and Young Presidents Organization.

Miller received a bachelor's degree in commerce from St. Louis University in 1963 and a master's degree in business administration from Washington University in 1985. He formerly was a member of the board of directors of the New Age Federal Savings & Loan Association of St. Louis, Gateway National Bank and Greeley Community Center. Current board memberships include St. Louis Regional Commerce and Growth Association, Gateway Mall Redevelopment Corp., Pride of St. Louis Redevelopment Corp., Landmark Central Bank & Trust Co., St. Louis Council of Boy Scouts of America and Goodwill Industries. He also was associated with the Office of Economic Development, St. Louis, from 1974-1975.

Harvey Saligman

Paul L. Miller Jr.

## '80s family—*continued from p. 1*

tle Chamber of Commerce in 1978. She is a member of the National Council of Family Relations and the International Academy of Sex Research.

For more information about the lecture, call 889-4620.

The Woman's Club is a social organization that sponsors cultural and educational functions. Its members include women faculty and staff and wives of faculty and staff. Schwartz's talk is the third annual Woman's Club Assembly Series lecture.

In connection with the lecture, the Woman's Club will hold a lunch-

eon at 12:30 p.m. Wednesday, Nov. 5, at the Junior League, 8250 Clayton Road. At the event, Schwartz will answer questions about her book *American Couples: Money, Work, and Sex*.

Adele Starbird, dean emerita of women at Washington University, and Gertrude Hartmann will be honored at the luncheon for 60 years of club service.

The luncheon is open to club members and their guests. The cost is \$10. For more information, call Patricia Owens at 968-4680.

## Psychological Service Center expands offering

The Psychological Service Center at Washington University has expanded its services and has openings for new clients. Located in Eads Hall, the center is open to individuals of all ages from the St. Louis community.

The center is staffed by faculty and advanced graduate students in the University's clinical psychology doctoral program. The graduate students are supervised by the faculty, who are licensed, clinical psychologists. The director is Amy D. Bertelson, Ph.D.

Short- or long-term psychotherapy is offered to all clients. In response to demand, group therapy programs can be designed to treat specific problems, such as weight loss, anxiety and insomnia. Psychological assessment, including intellectual, personality and diagnostic evaluation for children and adults, is offered through the center.

For more information, call the center at 889-6555.

# NOTABLES

**Garland E. Allen**, Ph.D., professor of biology, presented three seminars on the history of eugenics October 13-15 in Pennsylvania. At the University of Pennsylvania he spoke on "Race Horses and Draft Horses: Metaphors of Animal Breeding in American Eugenics, 1900-1940," focusing on the close ties between agriculture and eugenics in the early 20th century. He gave two lectures at the University of Pittsburgh Medical School. The first one was titled "The American Eugenics Movement, an Overview: 1900-1940," and the second one, "The Founding of the Eugenics Record Office at Cold Spring Harbor: Social and Institutional History."

**Louis H. Ederington**, Ph.D., was appointed director of the Institute of Banking and Financial Markets at the School of Business. Ederington, a senior research scholar, had been acting director of the institute during the past year. Previously, he had been associate director of the institute since September 1984, when he came to St. Louis from Georgia State University.

**Cornell H. Fleischer**, Ph.D., associate professor of history, has been elected to the board of directors of the Turkish Studies Association, and was appointed as a delegate-at-large, 1986-87, for the American Research Institute in Turkey. He also was named co-director, 1986-87, for the American Research Institute in Turkey-Bosphorus University Intensive Turkish Language Summer Program.

**Paul M. Lutzeler**, Ph.D., chairman of the Department of Germanic Languages and Literatures and professor of German, has won the book prize of the German Studies Association for his book, *Hermann Broch: A Biography*, published in 1985 by Suhrkamp Publishing, Frankfurt, Germany. The association, founded 10 years ago in the United States, is an international and interdisciplinary organization of scholars in the field of history, literature and the social sciences that deal with German-speaking countries. Lutzeler's book was cited "as the best work during the past two years in German literature."

**Jeffrey L. Marsh**, M.D., associate professor of plastic and reconstructive surgery at the School of Medicine, has been elected to a three-year term as secretary of the American Cleft Palate Association. At the association's recent annual meeting, he also presented three papers and co-chaired a one-day symposium on the long-term results of craniofacial surgery. Marsh and **Michael W. Van-nier**, M.D., associate professor of radiology, recently published a textbook on use of computer imaging in the diagnoses and correction of facial deformities.

**Joseph R. Roach**, chairman of the Performing Arts Area, received the Barnard Hewitt Award for outstanding research in theatre history for his book titled *The Player's Passion: Studies in the Science of Acting*. The award, a check for \$500, was presented recently at the National Educational Theatre Conference at New York University. Roach's book,

published by the University of Delaware Press, was selected from among 88 that were read for the 1985 award. The book explores a theory in performance found in classical rhetoric and examines significant writings about emotion in performance. It details how those works reflect scientific concepts of human physiology and its relation to emotion.

**Robert M. Walker**, Ph.D., McDonnell Professor of Physics and director of the McDonnell Center for the Space Sciences, and **Ernst Zinner**, Ph.D., director of the Ion Probe Laboratory in the center, attended the Committee on Space Research (COSPAR) Conference in Toulouse, France. Walker gave an invited paper on the analysis of cosmic dust impacts recorded in the thermal blanket returned from the Solar Max Space Mission. Following the COSPAR conference, Walker delivered a series of lectures on interstellar dust at the Enrico Fermi Summer School in Varenna, Italy. Zinner gave invited talks at the Max-Planck Institutes in Heidelberg and Mainz, West Germany.

**Richard J. Walter**, Ph.D., professor and chairman of the history department, served as program chairman for the Annual Meeting of the Midwest Association of Latin American Studies held Sept. 25-27 at St. Louis University. War and peace was the theme of the meeting, which featured more than 100 specialists from around the globe. The meeting was co-sponsored by Washington University's Latin American Studies Committee, of which Walter is a member. Walter also was discussant on a panel titled "The Southern Cone." Several other members of the Latin studies committee participated in the meeting. **Raymond L. Williams**, Ph.D., associate professor of romance languages and literatures, chaired and served as a principal discussant on a panel titled "War and Peace in the Work of Gabriel Garcia Marquez." **Margarita Miller** and **Ben Heller**, two graduate students in romance languages, presented papers in the session. **John F. Garganigo**, Ph.D., professor of romance languages and literatures and chairperson of the University's Latin studies committee, served as discussant for a session titled "Literature and Latin America." **Philippe Bourgois**, Ph.D., assistant professor of anthropology, presented a paper titled "Politicized Ethnicity: The Miskitu of Northeastern Nicaragua" at a session on "Peasants in Latin America." **Barry Ames**, Ph.D., associate professor of political science, served as a discussant for a panel titled "Democracy and Authoritarianism in Contemporary Latin America."

## Have you done something noteworthy?

Have you: Presented a paper? Won an award? Been named to a committee or elected an officer of a professional organization? The *Washington University Record* will help spread the good news. Contributions regarding faculty and staff scholarly or professional activities are gladly accepted and encouraged. Send a brief note with your full name, highest earned degree, current title and department along with a description of your noteworthy activity to Notables, Campus Box 1070. Please include a phone number.

Cynthia Lindman composed this winning design the night before the contest deadline.

## NASA picks student's design as official logo for Venus mission

A graphic design by Cynthia Lindman, a sophomore in the College of Arts and Sciences, was chosen by NASA's Jet Propulsion Laboratory as the official logo for the space agency's Magellan Mission to Venus.

Magellan, an unmanned mission to map the surface of Venus, is scheduled for launch in 1989. Lindman's logo will be used on the masthead of the Magellan newsletter and on all mission documents and reports. The logo also will appear on T-shirts, coffee mugs and other commemorative items.

Lindman, a native of Bloomington, Ind., who describes herself as a

"non-scientific, compulsive design contest enterer," composed the winning design the night before the contest deadline. The circular logo incorporates a sailing ship representing the mission's namesake, Ferdinand Magellan, with graphic symbols representing the orbits of Earth, Mercury and Venus around the sun.

Lindman will receive an award during a Nov. 19 ceremony in her honor at the Jet Propulsion Laboratory in Pasadena, Calif., the command center for the Magellan Mission.

## NEWSMAKERS

Washington University faculty and staff make news around the globe. Following is a digest of media coverage they have received during recent weeks for their scholarly activities, research and general expertise.

**Identification of human skeletal remains** that were found in a wrecked plane in New Guinea was the subject of the second part of a three-part series in the May 14 New Yorker magazine. A key part in the identification process by the U.S. Army's Central Identification Laboratory was the estimation of living height of individuals. The article explains how formulas devised by Mildred Trotter, Ph.D., professor emerita of anatomy, were used to estimate height of the plane crash victims from lengths of long limb bones.

"Washington University's Business Dean is taking care of business," states the headline from the August issue of St. Louis Magazine. The article contains an in-depth interview with Robert L. Virgil, D.B.A., dean of the School of Business and Public Administration.

**Who really pays corporate income taxes** is a debate that rages on as Congress shifts the \$100 billion in

tax liabilities from individuals to corporations. The Aug. 5 Philadelphia Inquirer and many other nationally prominent newspapers quoted Chris Varvares, lecturer in economics, in the article. Corporations vary in their ability to pass on the various taxes (sales, excise, social security and income) to consumers. Some companies can't raise prices without losing sales, so they shift taxes to employees or shareholders, he said.

**Tax change: demon or gentle genie?** questions the front-page headline from the Aug. 11 Hackensack (N.J.) Record. Murray Weidenbaum, Ph.D., director of the Center for the Study of American Business, offers his concerns in this story dealing with the pros and cons of the new tax reform legislation recently passed by Congress. He told the Senate Finance Committee that "focusing on tax reform is not only irrelevant, it's counterproductive."

**Recycling a patient's own blood during open heart surgery** reduces or eliminates the need for transfusions from donors, according to Nicholas T. Kouchoukos, M.D., John M. Schoenberg Professor of Cardiovascular Surgery. The story appeared in the New York Post on Sept. 10.

# CALENDAR

Oct. 30-Nov. 8

## LECTURES

### Thursday, Oct. 30

**Noon. Pharmacology Dept. Lecture,** "Molecular Characterization of Cardiac Phospholamban," Larry Jones, dept. of medicine, Krannert Institute of Cardiology, Indianapolis, Ind. WU Pharmacology Library, third fl., South Bldg.

**12:10 p.m. Gallery Talk,** "Marcel Duchamp," Lawrence Steefel, WU Steinberg Professor of Art History, Upper Gallery, Gallery of Art.

**4 p.m. Dept. of Earth and Planetary Sciences Seminar,** "Desertization in Mali: The Interaction Between Fluvial and Aeolian Environments," Patricia A. Jacobberger, of the National Air and Space Museum, Smithsonian Institution. 102 Wilson.

**4 p.m. Dept. of Chemistry Seminar,** "Mechanism Based Inhibitors of Steroid Biosynthesis," Douglas Covey, WU assoc. prof. of pharmacology. 311 McMillen.

**4 p.m. Central Institute for the Deaf (CID) Research Seminar,** "Evaluation of Tactile Aids for the Deaf," Jan Weisenberger, asst. research scientist, CID. Second floor aud., CID Research/Clinics Bldg., 909 S. Taylor Ave.

**4:30 p.m. Dept. of Mathematics Colloquium,** "On the Classification Problem of Embedded Lines in Characteristic P," T.-t. Moh, prof. of mathematics, Purdue U. 199 Cupples I.

### Friday, Oct. 31

**9:15 a.m. Dept. of Pediatrics First Donald B. Strominger Lecture,** "Human Chromosome Maps: Tools for the Study of Human Genetic Diseases," Raymond L. White, prof. of human genetics and cellular, viral and molecular biology, U. of Utah School of Medicine. Clopton Amphitheatre, 4950 Audubon Ave.

**2 p.m. Dept. of Chemical Engineering Seminar,** "Production of Lymphokines by T Cell Hybridomas: Overview," Carl W. Pierce, Messing Professor of Pathology, WU Medical School. 100 Cupples II.

**2 p.m. Economic History Seminar,** "Ideology and the Growth of Government," Max Hartwell, prof. of economic history, universities of Chicago and Virginia. Sponsored by the Center for the Study of American Business. 300 Eliot.

**4 p.m. The 14th Annual Carl V. Moore Memorial Lecture,** "Living with Lymphocytes: The Regulation of B Lymphocyte Growth," William E. Paul, chief, laboratory of immunology, National Institute of Allergy and Infectious Diseases, National Institutes of Health, Bethesda, Md. Carl V. Moore Aud., 1st floor, North Bldg., 4580 Scott Ave.

### Monday, Nov. 3

**3:30 p.m. Dept. of Mathematics Analysis Seminar,** "Restriction Theorems and Partial Differential Equations," C.D. Sogge, prof. of mathematics, U. of Chicago. 199 Cupples I.

**4 p.m. Dept. of Chemistry Seminar,** "Inelastic Heavy-Ion Scattering on 208Pb," D.C. Hensley, staff physicist, physics division, Oak Ridge National Laboratory. 311 McMillen.

**4 p.m. Immunology Research Seminar,** "Cell Killing Mechanisms and Target Membrane Control," Hans Muller-Eberhard, chairman, dept. of immunology, Scripps Clinics and Research Foundation. Children's Hospital Aud., 3-S.

**4 p.m. Dept. of Psychology Colloquium,** "Mechanisms Controlling Lexical Access," Michael Posner, WU prof. of neuropsychology in neurology. 102 Eads.

**4 p.m. Dept. of Biology Seminar,** "An Integrated Molecular and Quantitative Genetic Analysis of Cholesterol Metabolism in Humans," Alan Templeton, WU prof. of biology. 322 Rebstock.

**8 p.m. School of Fine Arts Lecture,** "Trends in the 80s," Thomas Lawson, critic and artist from New York City. Bixby Gallery, Bixby Hall.

**8 p.m. School of Architecture Lecture Series,** "City and Nature: A Poetic Dialogue," Anne Whiston Spirn, chairman, dept. of landscape architecture, U. of Pennsylvania. Steinberg Aud.

### Tuesday, Nov. 4

**4 p.m. Dept. of Chemistry Seminar,** "Solvent Mediated Solute-Solute Interactions in Aqueous Solution," Peter Rossky, prof. of chemistry, U. of Texas at Austin. 311 McMillen.

### Wednesday, Nov. 5

**11 a.m. Woman's Club of Washington University Lecture,** "What's Happening to the Family? Intimacy and Marriage in the 1980s," Pepper Schwartz, author of *American Couples: Money, Work, and Sex*. Part of the Assembly Series. Graham Chapel.

### Thursday, Nov. 6

**8:30 a.m. Administrative Staff Meeting Panel Discussion,** "Students of the 80s: Changing Perspectives, Changing Needs," Simon Hall. Aud.

**12:10 p.m. Gallery Talk,** "The School of Paris and Modern Art," Gerald Bolas, director of the WU Gallery of Art. Upper Gallery, Gallery of Art.

**4 p.m. Dept. of Chemistry Seminar,** "Getting at the 3-D Structure of DNA and Proteins From 2-D NMR Data," Brian Reid, prof. of chemistry, U. of Washington-Seattle. 311 McMillen.

**4 p.m. Dept. of Earth and Planetary Sciences Seminar,** "Evolution of the North America-Eurasia Plate Boundary in Siberia," Kazuya Fujita, dept. of earth sciences, Michigan State U. 102 Wilson.

**4 p.m. Public Affairs Thursday Series,** "Symposium: South Africa Update," Michael Friedlander, WU prof. of physics; Michael Gomez, WU asst. prof. of African and Afro-American Studies; and Victor Le Vine, WU prof. of political science. 200 C & D Eliot.

**8 p.m. Goldstein Inaugural Lecture,** "Jewish Responses to Peril and Catastrophe," Rabbi Marc Eli Saperstein, WU Gloria M. Goldstein Professor of Jewish History. Sponsored by Jewish and Near Eastern Studies, Dept. of History and Religious Studies. Steinberg Aud.

**8 p.m. Dept. of Germanic Languages and Literatures Lecture,** "Die kunstliche Frau, Zum romantischen Kunstmarchen E.T.A. Hoffmanns und zum symbolischen Roman Villiers de l'Isle-Adams," Hiltrud K. Gnug, WU visiting professor of German. Hurst Lounge, Duncker Hall.

### Friday, Nov. 7

**6 and 8:30 p.m. WU Association Film Travel Lecture Series,** "Flavours of France in the Provinces," Allen Hubbard, filmmaker. Graham Chapel. For ticket info., call 889-5122.

### Saturday, Nov. 8

**10:30 a.m. School of Law Discussion,** "Life After Law School: Personal Goals and a Legal Career — Achieving a Balance," Alumni Shelly Shapiro, Glenn Amster, Earon Davis, Jill Pilkenton, Jerry Hunter and Deborah Korenblat; and Susan Sullivan, assistant dean. 303 Mudd Hall.

## PERFORMANCES

### Saturday, Nov. 1

**8 p.m. Edison Theatre Presents Mabou Mines in "Cold Harbor."** General admission is \$15; \$10 for WU faculty/staff and senior citizens, and \$7 for students. For more info., call the Edison Theatre box office at 889-6543.

## EXHIBITIONS

**"A Photographic Exhibit of the Works of Viennese Architect Adolf Loos,"** from the Austrian Institute in New York. Through Oct. 30. Hallway Gallery, 1st fl., Givens Hall. 7 a.m.-11 p.m. daily. For more info., call 889-6200.

**"Beckett at 80,"** an exhibit of books and manuscripts drawn from the Samuel Beckett Collection. Through Dec. 31. Special Collections, Olin Library. 8:30 a.m.-5 p.m. weekdays.

**"New York Art Directors 65th Annual Exhibition,"** Through Nov. 2. Bixby Gallery, Bixby Hall. 10 a.m.-4 p.m. weekdays; 1-5 p.m. weekends.

**"The School of Paris and Modern Art in Europe,"** Through Nov. 9. Gallery of Art, upper gallery. 10 a.m.-5 p.m. weekdays; 1-5 p.m. weekends. For more info., call 889-4523.

**"Early Modernist Architecture in St. Louis: William Adair Bernoudy,"** Through Dec. 7. Gallery of Art, lower gallery. 10 a.m.-5 p.m. weekdays; 1-5 p.m. weekends. For more info., call 889-4523.

### "Recent Photographic Acquisitions."

Through Dec. 28. Gallery of Art, print gallery. 10 a.m.-5 p.m. weekdays; 1-5 p.m. weekends. For more info., call 889-4523.

## FILMS

### Thursday, Oct. 30

**7 and 9 p.m. WU Filmboard Series,** "Duet for Cannibals." \$2. Brown Hall.

### Friday, Oct. 31

**7 p.m. and midnight. WU Filmboard Series,** "Wolfen." \$2. Brown Hall. (Also Sat., Nov. 1, same times, and Sun., Nov. 2, at 7 p.m., Brown.)

**7:30 p.m. Film "Trans-Europ-Express,"** by Alain Robbe-Grillet, WU Distinguished Professor of Romance Languages and Literatures, with 30-minute filmed commentary by Robbe-Grillet, will be shown in Meyer Language Lab, Ridgley Hall.

**9:30 p.m. WU Filmboard Series,** "Cat People." \$2. Brown Hall. (Also Sat., Nov. 1, same time, and Sun., Nov. 2, at 9:30 p.m., Brown.)

### Sunday, Nov. 2

**1 p.m. WU Libraries Bookmark Society Literary Cinema Series,** "The Lady Eve." Jeffrey Rusten, WU assoc. prof. of classics, will lead a discussion of the film. 215 Rebstock.

### Monday, Nov. 3

**7 and 9:15 p.m. WU Filmboard Series,** "Top Hat." \$2. Brown Hall. (Also Tues., Nov. 4, same times, Brown.)

### Wednesday, Nov. 5

## Calendar Deadline

The deadline to submit items for the Nov. 13-22 calendar of the *Washington University Record* is Nov. 6. Items must be typed and state time, date, place, nature of event, sponsor and admission cost. Incomplete items will not be printed. If available, include speaker's name and identification and the title of the event; also include your name and telephone number. Address items to King McElroy, calendar editor, Box 1070.

## Services expanded an information desk in Mallinckrodt

To better serve the Washington University community, the Office of Student Activities has expanded services at The Desk, the campus information center in Mallinckrodt Center.

The Desk, which is staffed by trained students, now provides information about campus events 24 hours a day via a recorded message. Each evening when The Desk closes, you may call the center at 889-5998 and receive events information for that evening and the following morning.

The Desk is staffed from 9 a.m. to 8 p.m. Monday through Thursday, 9 a.m. to 6 p.m. on Friday, and 10 a.m. to 5 p.m. Saturdays and Sundays. A free phone is available near the center for on and off-campus calls.

The student activities office also is soliciting information on events open to the campus community and general public.

## Plant growth —

*continued from p. 1*

"We're delighted with the design of the addition," says Tom H. Simmons, administrator for the biology department. "We think it will be a huge improvement for the Life Sciences Building. After the new greenhouse is constructed and the current one is removed, the south facade of Rebstock Hall will be exposed. It's a very pretty piece of stonework. Our section of campus will be a lot more beautiful."

With its limestone and granite makeup, the Plant Growth Facility is similar to Simon Hall and will blend in well with the campus, notes Joe E. Evans, associate vice chancellor for business affairs.
